EFFECTIVE CRIME SCENE REPORTING

MISSOURI POST CONTROL # 21906

**Register at: Effective Crime Scene Reporting
or at www.on-targetsolutionsgroup.com**

Who should attend: This one-day fundamental seminar is designed for any sworn/civilian personnel involved in evidence recovery and preservation efforts. Presented materials and practical exercises are designed to strengthen your everyday and forensic reporting skills.

Crime scene documentation demands an elevated and often technical level of detail that goes beyond standard field reporting needs of statutory and Uniform Crime Reporting requirements. Forensic/Scientific focused documentation can counter memory recall challenges experienced by even the most seasoned crime scene investigators. Accurate reporting offsets media-fueled CSI effects which adversely impacts ensuing and often time-delayed trials.

The presented methodologies employed during your investigative efforts will allow for any crime lab analytical, reconstruction, case clearance, and ultimately courtroom needs. Simultaneously, your personal and your agency's professional reputation will be enhanced.

This seminar is one of the three required to receive a Forensic Technician certification. The others are Evidence Processing and Crime Scene Photography. These seminars may be taken individually or as a group during this week for a reduced fee of \$750 for the entire week. You may attend future seminars to receive the certification if you cannot attend the entire week.

Topics Include:

- Compiling Actionable Field Notes
- Intelligible Report Formatting
- Terminology Usage
- Creation of Analysis-Level Documentation
- Aspects of Hearing vs Visual Impacts
- Courtroom Demonstratives
- Visual Methodologies Review:
 - Sketching
 - General Photography Methods
- Considerations of Technology Usage
 - Pitfall Awareness
 - 3D Scanning
 - Drone Usage
 - GIS/Internet Maps

R.P. "Rusty" Sullivan's on-going 40 year law enforcement sworn and civilian career continues to build upon 20 years of accumulated full-time forensic practitioner/supervisor assignments. He has served as the President and Chairman of the Board of the Illinois Division of the International Association for Identification. He has over 18 years of presenting in this field and has provided annual state level forensic training conferences and workshop(s) and is a court recognized expert in the forensic sub-disciplines of Latent Fingerprint and Digital Data Recovery. Rusty worked as a civilian Forensic Investigator (CSI)/Mobile Digital Device Analyst and has served on large and mid-sized agencies, having a multi-year assignment to Major Crimes Task Force evidence team as well as management, supervisory and front-line evidence experience in high profile and complex investigations.
