Evidence Processing - Crime Scene to Courtroom Basics

Register at: Evidence Processing
or at www.on-targetsolutionsgroup.com

This foundational course is designed for any personnel assigned to Patrol and Investigation duties, empowering them to identify, collect and record commonly encountered evidence at crime scenes. Skill sets learned can increase your agency's case clearance rates and successful courtroom prosecution efforts, while simultaneously building public service satisfaction levels and their confidence in investigative efforts.

Training encompasses on-scene application of forensic scientific principles and is presented in a concise-immersive style utilizing lecture and hands on exercises. Upon completion attendees will be able to perform basic crime scene processing and recovery efforts.

- Note: Individually owned flashlight use is encouraged during classroom practical exercises. Students can bring any other available camera or forensic equipment to build confidence-familiarity of use during the training. Practice materials will be provided at the training.

"This class has been cataloged by the Council on Law Enforcement Education and Training for 16 hours of mandatory continuing education credit. Regarding any law enforcement concepts, practices, methods, techniques, products, or devices as might be taught, promoted, or otherwise espoused in outside schools or seminars, there is no intent, expressed or implied, that listing the course in the CLEET Course Catalog indicates or in any way conveys 'CLEET approval' of such concepts, practices, methods, techniques, products, or devices, unless such approval is explicitly stated by CLEET."

"Materials provided were excellent & instructor was very knowledgeable. I feel I have the practical skills to now perform a variety of forensic evidence recovery".

Bree Cowdrey, Sumner (WA) PD

"Did a great job of using real-world experience to deliver information in an easy to understand and practical manner".

Ward Kruse, Camas (WA) PD

"The relevant subject matter and interaction activities made learning more memorable. Explains the information in a simple, understandable way."

Jason McDonald, Burlington (WA) PD

"Brings real life experience to the classroom: what worked, what didn't. (The strongest feature of this seminar) multiple techniques for collecting fingerprints using well known techniques as well as tried and true methods."

ET Rebecca, Boettjer, Monroe County (IN) SO
